Library Catalogue

<https://library.rmcp.org.uk/>

Welcome

Ruskin Mill Centre for Practice hosts a library catalogue at <https://library.rmcp.org.uk/> . The catalogue enables users to search our book collections across our various sites, check availability of items, manage library accounts, renew loans, place reservations and access online resources.

This is a short guide to using the catalogue. If you have any queries, please email library@rmcp.org.uk .

Searching the Catalogue

Use the search box to search by keyword, title, author, or ISBN. You can also restrict your search to results from a specific site if required. The Advanced Search option allows you to construct more detailed searches, for example limiting your search by item type or publication date, which may be useful if too many results are returned.

Basic Search

Understanding Search Results

Once you've carried out a search, results are displayed in a list containing title, author, publication details, format and availability status.

The screenshot shows two search results. The first result, 'Doing your Master's dissertation' by Furseth, Inger | Everett, Euris Larry, is annotated with a red box around the title and authors, and another red box around the availability information: 'Items available for loan: George Adams Research Centre (5) [Class number: 808.066 FUR, ...]'. The second result, 'Craft sciences [electronic resource]' by Almekvik, Gunnar [editor.] | Groth, Camilla | Westerlund, Tina, is annotated with a yellow background for the 'Online resources: Click here to access online' link, and a red box around the 'Add to folder' button. Annotations include: 'Citation information: title, authors, date etc' pointing to the first result's title and authors; 'Site where item is held plus shelfmark' pointing to the first result's shelfmark; 'Create a folder of useful items for exporting' pointing to the 'Add to folder' button; and 'Yellow indicates an online resource; click link to access' pointing to the yellow background.

You will also see options on the left of the screen to revise your search further, eg restricting results to a particular author, item type, or other options.

Full Item Details

Click on the title of a book to view its details. Full records provide detailed catalogue information including shelfmark, subjects, ISBN, edition and item location.

The screenshot shows the full details for the book 'Splintered light: logos and language in Tolkien's world' by Hagen, Verlyn. Annotations include: 'Book information plus jacket' pointing to the book cover and title; 'Keywords describing book content' pointing to the subject terms; 'Book contents / summary' pointing to the synopsis; and 'Available copies and location' pointing to the table of holdings. The table of holdings is as follows:

Item type	Current library	Collection	Call number	Status
Book	George Adams Research Centre	Main	823.912 FL2 (Browse shelf)	Available
Book	George Adams Research Centre	Main	823.912 FL2 (Browse shelf)	Available

Finding Items

Our physical libraries use the Dewey Decimal Classification system. Each item should indicate the site where the book is held, the numeric portion determines shelf order, and the letters distinguish authors. If you are viewing the catalogue, you can also use the 'Browse shelf' option to see which other books are next to the one you are looking at,

Availability Statuses

Items may show various availability statuses. Common ones are:

Available – The book is on the shelf and available to borrow

Issued – The book is currently on loan to someone else, in which case its return date will be displayed. If all loanable copies have been checked out, you can place a reservation.

Not for loan – The book is a reference item and cannot be borrowed.

Item type	Current library	Collection	Call number	Status	Date due
 Book	George Adams Research Centre	Main	371.90941 GOR (Browse shelf)	Issued	16/10/2026
 Book	George Adams Research Centre	Reference - not for borrowing	371.90941 GOR (Browse shelf)	Not for loan	
 Book	George Adams Research Centre	Main	371.90941 GOR (Browse shelf)	Available	

Accessing Online Resources

Many records include links to EBooks, online journals, and other Open Access resources. Where this is the case you should see a clearly marked URL which will take you to the item.

RoSE : Research on Steiner Education [journal]

Online resources: [Click here to access online](#)

 [Save to lists](#)  [Add to folder](#)

There is a 'Home' button on every screen of the catalogue if you wish to return to the homepage.

Accessing Your Account

You will have been sent an email with details of your username when your library account was created. The email will contain instructions on how you can create a password to access your account. Your password is private to you - not even library staff can view it - so if you forget it, you will need to use the 'Forgot your password?' link from the homepage and follow the instructions to create a new one.

Log in to your account:

Managing Your Account

Once you've entered your account area, you can use the various tabs to view loans, holds, personal details, reading history and more. You can also use this space to renew books, although the system has been set up so that books will auto-renew by default.

Borrowing Items

If you are logged in, you can borrow items from the system. Click on 'Self Issue' at the top of the screen, then type or scan the barcode of the item that you wish to borrow. You will see it appear in your Account area, together with the due date for return.

A screenshot of a web form titled "Self issue" with a close button (X) in the top right corner. The form contains a label "Enter item barcode:" followed by a text input field. At the bottom right of the form are two buttons: a green "Submit" button and a grey "Close" button.
